
Cape Cod Collaborative Extended Year Session

Autism Spectrum Programs

Elementary – Oak Ridge School, Sandwich
Language Based – Oak Ridge School, Sandwich

The elementary/middle school programs are designed to meet the needs of children diagnosed with communication and cognitive disorders, including the autism spectrum. The programs utilize a structured and behavioral approach, emphasizing functional academics and daily living skills. Staff focus is on maintaining communication skills, interaction and play/recreation skills using a variety of activities, manipulatives and materials.

Behavior/Language Program

ASD High School– Sandwich HS

The interactive cognitive communication programs address the needs of students with severe cognitive and communication/language disorders. Emphasis is placed on maintaining appropriate interaction and socialization skills, independent living skills, and prevocational skills and recreation activities.

Multiple Disabled Programs

DTC/Elementary – Oak Ridge, Sandwich
DTC/MS—Quashnet School, Mashpee
DTC/High School—Quashnet School, Mashpee

The programs are designed to meet the sensory, motor and cognitive needs of students with multiple disabilities. Emphasis is placed on basic communication, social and self help skills. Computers, augmentative communication devices, adapted toys/materials/equipment are integrated into the program.

ED/BD Program

Stony Brook School, Brewster

The 2009 ED/BD ESY program is open only to those students currently attending the CCC program. The focus of the program will be to maintain a structured routine with consistent behavioral and social expectations. Cooperative play, social skills instruction and academic tutoring will be integrated within the school day.
